№ GEO/AZE/021/145

The Embassy of the Republic of Moldova to Georgia with residence in Baku, Republic of Azerbaijan presents its compliments to the Ministry of Foreign Affairs of Georgia and has the honor to inform that in order to implement the *Agreement between the Government of the Republic of Moldova and the Government of Georgia on the international auto traffic signed on 11.07.2012* the goods that are carrying by vehicles exceeding the total permissible laden weight, the acceptable maximum weight on axles and/or the maximum permissible dimensions can be transported on the public roads of the Republic of Moldova only on the basis of a Special Transport Permit (*more detailed information is attached*).

In this respect, the Embassy would appreciate if the esteemed Ministry will forward this information to the relevant authorities of Georgia.

The Embassy of the Republic of Moldova to Georgia with residence in Baku, Republic of Azerbaijan avails itself of this opportunity to renew to the Ministry of Foreign Affairs of Georgia the assurances of its highest consideration.

CONDITIONS FOR OBTAINING SPECIAL TRANSPORT PERMIT FOR INTERNATIONAL FREIGHT TRANSPORT

National Agency of Road Transport informs economic agents and road hauliers engaged in national and international traffic about the necessity to obtain for the transport of **indivisible goods** a Special Transport Permit, according to the requirements established by the Road Transport Code No.150 dated 17.07.2014.

Thus, under the provisions of Art. 62¹ (1) It is prohibited to perform transport by vehicles registered in the Republic of Moldova or in other states, on public roads exceeding the total permissible laden weight, the permissible maximum weight on axles and/or the permissible maximum dimensions stipulated in the Road Law.

Paragraph (2) **By way of exception from the provisions of par. (1), carrying of goods by vehicles, registered in the Republic of Moldova or in other states, on public roads exceeding the total permissible laden weight, the permissible maximum weight on axles and/or the permissible maximum dimensions is allowed only on the basis of a special permit issued by the Agency, under the conditions stated in the Regulation on carrying on public roads with weights and/or dimensions exceeding the established limits and only for the transport of indivisible goods or in the situation when the vehicle exceeds by construction permissible maximum weight and/or dimensions.**

Paragraph (3) In order to obtain a special permit, the applicant shall submit an application in accordance with the model provided in the Regulation on the authorization, control and carrying on public roads with weights and/or dimensions exceeding the established limits, with payment of the appropriate fee. For the purpose of issuing the permit, the Agency will obtain, through the application of the single-window mechanism, without the involvement of the applicant, all necessary approvals and coordination with the Ministry of Internal Affairs and, if necessary, from other entities.

At the same time, according to the provisions stated in p.11 of the Regulation on the authorization, control and carrying on public roads with weights and/or dimensions exceeding the established limits, approved by the Government Decree No. 1073 from 01.10.2007 (Official Journal of the Republic of Moldova, 2007, No. 161-164, art.1121) *Circulation on public roads of transports with weights and/or dimensions exceeding the permissible limits is possible only in exceptional cases, for the transport of indivisible goods, on the basis of the special transport permit issued by the central public administration authority in the field of transport and road maintenance.*

Therefore, in order to prevent cases of prohibiting the carrying on public roads of goods with weights and/or dimensions exceeding the permissible limits, the National Agency of Road Transport recommends to the economic agents and road hauliers that perform international transport of goods, to complete in advance the Special Transport Permit that will allow to reduce the time required for crossing of goods and vehicles through the state border.
